4. Using graph paper, draw the area to be landscaped. We suggest a scale of one square for every foot. We'll use these dimensions to create your plan. Be sure to include all elements that surround the area you'll be landscaping.

- Outline the perimeter of your home, building or area to be landscaped.
- Draw the exact location and width of the driveway and walks.
- Show the distance to the lot line on all sides.
- Indicate measurements and exact positions of all existing permanent features, such as a patio/deck, sprinkler systems, downspouts, hose bibs, air conditioning units, trees, etc.
- Indicate any plants you wish to keep.
- Indicate window and door locations. Show the distance from ground level to the window sills and the top of the porch.
- Provide photographs from as many different views as possible.
- Make notes on the site characteristics: sun, wind exposure, drainage, soil type and unsightly views.
- Indicate which direction is north.
- Include any photos or magazine clippings of gardens or landscapes you'd like to see in your design.
